# The 7th International Workshop of T.A.C.E.C Programme: "Projects of Sustainable Development in LDCs: how finance them through Microfinancings and CDM"

Milan, July 14, 2011  
Auditorium , Federchimica

## Federchimica

The National Federation of the chemical industry represents in Italy more than 1,300 Chemical Companies with more than 90,000 employees, in 16 Associations of Sectors, divided into 40 Product Groups. Federchimica's main targets are the coordination and the guardianship of the chemical industry in Italy. Furthermore, Federchimica cooperates with Public, Local and Central Administrations and with public and private Research's Institutes, for the sustainable development of the chemical industry.

## The Climate Change Challenge

The Chemical Industry in Italy is strongly committed to the respect of the Kyoto's Protocol and the beyond targets launched by the European Union: during the period 1990 – 2008, the Chemical Industry in Italy reduced the CO<sub>2</sub> equivalent emissions of the Green House Gases by 56%, with a total of 17 million of ton reduced, much more than the national target. Moreover, the chemicals represent the solutions to reduce the CO<sub>2</sub> emissions by the Downstream Users too: recent estimates confirm that the Industrial End Users have reduced their emissions between 2 and 3 times the value of the CO<sub>2</sub> emissions generated by the Chemical Industry each year.

## The T.A.C.E.C. Programme

To be committed to the Climate Change Policy recently adopted by the EU, Federchimica launched the Programme "TACEC – Towards A Carbon Efficient Chemistry", to identify, to evaluate and to realise a sustainable Value Added Chain along the chemical industry, starting from the extraction of the raw materials, their transformation into chemicals, the consequent incorporation into the manufactured articles by the Downstream Users and the wastes recovery of the chemicals. The TACEC is managed by the Energy Committee of Federchimica and it is structuring its activities in several Working Groups according to the issues analysed and the solutions proposed. Due to the global liasions of the topics of the Climate Change, the TACEC decided to organise each year 2 International Workshops and 1 National Conference, to let science, industries, management, finance and institutions to better integrate themselves to provide adequate solutions to the emerging issues.

## Who should attend at the 7th Workshop

CSR Managers, Product Managers, Energy Managers, Scientists interested to Sustainable Development, Corporate Venturing and Venture Capitalist, NGOs and Development Agencies.

---

A social dinner will be offered on July 13, at 8:00 p.m., for interested Attendees.

## Agenda

- 09:30 *Registration and Welcome Coffee.*  
10:00 Chairperson, Cosimo Franco, President of Responsible Care Programme, Federchimica:  
*"Openings and aim of the Workshop".*

### ***Introductory Session***

- 10:10 Giuseppe Astarita, Energy and Climate Change Unit Manager, Federchimica:  
*"The chemical industry in Italy and the challenge of the climate change targets".*

### ***1<sup>st</sup> Session: "Projects, Technologies and Results in LDCs"***

- Coordinator: Walter Mirabella, President of Renewables Group Federchimica  
10:30 Francesco Vitali, Researcher., CeTAmb, University of Brescia, Brescia:  
*"Recovery of vegetal biomasses as domestic carburants in Tchad and Cameroun"*  
10:55 Max Rodella, Director Jatrophia Paraguay, Ministry of Agiruculture, Assuncion :  
*"The project to produce biofuels from jatrophia in Paraguay"*  
11:20 Elisabeth Gomez, Project Development Manager, Impact Carbon, San Francisco:  
*"Using Carbon markets to fight poverty"*  
11:45 Questions and Answers

### ***2<sup>nd</sup> Session: "Legal and practical aspects to realize CDM projects"***

- Coordinator: Lorenzo Faregna, Legal Officer, Federchimica.  
12:00 Sanders Simonetti, Senior Associate Law firm, De Brauw Blackstone, Westbrook N.V., Amsterdam:  
*"CDM from a Legal Perspective"*  
12:25 Kim Van Deer Leeuw, Partner Do-Inc, Amsterdam:  
*"How to set up a project through CDM"*  
13:00 Questions and Answers.  
13:15 *Light Lunch*

### ***3<sup>rd</sup> Session: "Microfinancings, Social Venture Funds and CDM applications"***

- Coordinator: Davide Dal Maso, Partner Finanza Sostenibile, Milan.  
14:00 Fabio Malachini, Partner Impact Finance Management S.A., Geneva:  
*"The investment criteria for the sustainable projects in Emerging Countries"*  
14:25 Junio Valerio Palombo, Partner, South Pole Carbon Asset Management Ltd, Zurich:  
*"Small projects in biochemicals and CDM generation as a financial scheme"*  
14:50 *Questions and Answers.*

### ***Conclusions of the Workshop***

- 15:05 Cosimo Franco  
*"Conclusions"*
